

- 1,800 ha of mineral exploration concessions
- 100% ownership
- Salar de Ascotan
- Single geologic setting
- Power, rail, water, labour
- NI 43-101 Technical Report (2019)
- TEM and MT geophysics discovered highly conductive zones up to 400m
- Defined drill targets
- 17,600 ha gold and LCT pegmatite Lidstone prospect in northwestern Ontario, Canada

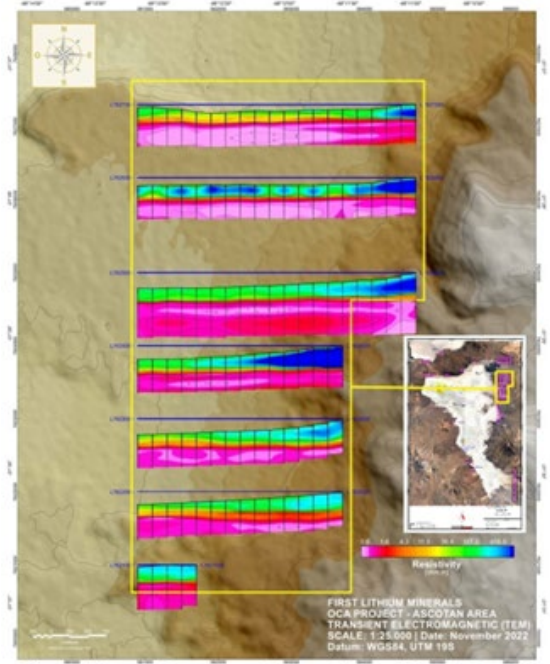

Alkali Metals and Borate Minerals

Area geology and hydrogeology extensively studied by Chilean Geological Surveying

Experienced Management and Board

Upcoming exploration drilling program

First Lithium Minerals Corp.
(CSE: FLM) (FSE: X28)

First Lithium Minerals Corp. is a Canadian exploration and development company with the brine exploration project targeting alkali metals and borate minerals in the Antofagasta Region of northern Chile and gold and LCT pegmatite prospect in northwestern Ontario, Canada
